

I am very excited to bring to you some terrific additions to Vista Family Medicine. We continue to try to improve and expand the care we can offer to your family.

First, we have a second doctor on staff, Dr. Priya Bhattacharrya.

Priya is **a family doctor, with special training in women's health.** Priya trained at the University of Michigan, Tufts University, and Macneal Hospital. She can care for all members of your family. We are delighted to have her with us.

Second, we have Tiffany Grant, a family nurse practitioner, who joins us from Rush University.

Tiffany is an award-winning nurse, and now in her new role as a nurse practitioner, she can diagnose and treat medical issues on her own. We work closely together as a team to handle difficult cases. She is a terrific addition to our team, and joins Monica Ryan, FNP to enhance our practice.

Third, we continue to collaborate with 21st Century Urology. Dr. Sarah Flury continues to see patients weekly here at Vista and can help with issues such as kidney stones, urinary incontinence, sexual issues, and other urological problems.

Lastly, we also are collaborating with the Center for Psychological Services, under the direction of Dr. Vicki Williams. We are excited to have their therapists assist patients here at Vista.

A lot going on, always! We keep getting better.

Jim Valek, MD
Founder, Vista Family Medicine
